# RECOMMENDATIONS

---

Sarah's work is brilliant, sophisticated, and elegant. She has a great design quality that you don't see everyday, even after working 30 years as a professional.

I think her success comes from the ability to plan and determine the end before she starts. These qualities will prove beneficial as she continues through her university experience and into a career.

Sarah was just tremendous. She came on as the sole member of our marketing team and took on a rebranding, a website redesign, and a social media revival all in the first few months of working for my department. She took our amateur marketing efforts and turned them into one of the most active and engaged on campus. Sarah's success spoke for itself, and I eventually asked her to own all of our marketing and design efforts, which she did brilliantly. Her work was always polished, always thoughtful, and always creative.
